

## Compensation for parental contribution lockdown (16-12-2020 to 17-01-2021)

The government ensures that all parents will receive the paid parental contribution back during the lockdown because of covid-19.

- If you are entitled to childcare allowance and have requested this at the tax authorities: the Social Insurance Bank (SVB) will take care of these payments, just like the first lockdown in 2020.
- If you use a municipal subsidy place (gemeentelijke subsidieplaats): you will receive the parental contribution back through SPA in the same month as the SVB reimburses the parental contribution.

It doesn't matter whether your child is visiting a pre-school or a BSO location. This arrangement applies to **all children** who are going to the childcare.

We will inform you as soon as we know more about the time of repayment of the parental contribution.
